OVERVIEW

Purpose:

- Amend Bylaws
- Focus work of subcommittees to support SHSP bike/ped implementation actions
- Work Plan template and process
- Next Steps
OVERVIEW (FROM JUNE 2020)

- **Purpose**: Review/Refocus NJBPAC

- **Methods**:
  - Conducted four virtual roundtable discussions in late May/early June with 20+ participants from various governmental entities and related organizations (primarily SMEs)
  - Research findings on BPAC best practices and more current info on state BPACs (five other states)
FEEDBACK FROM ROUNDTABLE DISCUSSIONS

- BPAC Core Mission
- Subcommittees
- Executive Council
- Overlapping Groups
“How do we seize the current opportunity with bicycling expanding? We need to get ourselves more connected.

“We need consistent messaging throughout the State.”

“It is good to have other state agencies, MPOs, Counties involved to discuss hot spots, best practices, issues that are coming up...”

“Here is the strength of BPAC...it’s the only meeting that has big players sitting in the room that are supporters of the little players...”

“What if this was a place to benchmark/track efforts throughout the State and to provide/receive updates on implementation efforts?”

“BPAC should be a central coordination spot.”

June 2020 BPAC
FEEDBACK ON CORE MISSION

Suggests one-way relationship; leaves out other agencies/entities/groups

“To advise NJDOT on policies, programs, research and priorities to advance cycling and walking as safe and viable forms of transportation and recreation throughout the State for users of all ages and abilities.

Minimizes role of walking/biking as essential exercise/activity (COVID-19)

What is missing?

• Equity
• Public health
• Resiliency
• Panel of experts/important role in information exchange and best practices sharing
• Other groups that collaborate with NJDOT (other State agencies, MPOs, TMAs...)

BPAC SUBCOMMITTEES
STRENGTHS AND CHALLENGES

- **Accomplishments:** Bike Ped Master Plan input, changing driver’s education test and creating pedestrian-scale lighting materials. Discussions/presentations on bike/ped counts and methodologies. Also period input on VTC research efforts.

- **Infrastructure** is a particular strength of BPAC/Subcommittees

- **Behavioral side/educational-safety messaging needs** to be more coordinated and unified via collaboration within/beyond current BPAC

- Difficult to set **priorities and** produce actionable **results without direction**

- Don’t know what happens to **work products** once they go to NJDOT

- More **direction and support** would help Subcommittees

EXECUTIVE COUNCIL

FEEDBACK

● No clear roles for Executive Council members unless they are Subcommittee Chairs

● Refocus the chair’s role → *engage the Council/facilitate discussion* to coalesce ideas into recommendations

● Encourage more *collaboration/coordination*
  ○ “You are in a room full of great heads with a great diversity of people but little discussion happens.”

● More focus on Subcommittee work rather than presentations

*June 2020 BPAC*
BEST PRACTICE GUIDANCE

- Prior research (2006 VTC Report/2012 Advocacy Advance)

June 2020 BPAC
BPAC MISSION/ROLE

• **Provide guidance to officials/staff/entities** who make decisions that impact bicycling and walking (such as BPMP, capital projects, SHSP)
• Act as **historians/track progress** over time & trace evolution of best practices
• Provide a **process for for** providing input
• **Experts** who advise, brainstorm, create, collaborate and maintain **partnership** across governmental entities and groups who are focused on safety

Oregon BPAC: “...to advise...on priorities, issues, projects and funding needs to improve biking and walking in Oregon. OBPAC members are **stewards of the Oregon Bicycle and Pedestrian Plan (OBPP) implementation**, with a **focus on the goals of safety, equity, and connectivity**. OBPAC informs and advocates for effective decision making and innovation solutions to ensure the OBPP vision is achieved.”
