COMPLETE STREETS FUNDING IN PASSAIC COUNTY

2017 NJ Complete Streets Summit
October 24, 2017
Michael Lysicatos AICP, PP
What does a Complete Street do?

A Complete Street is judged by what it achieves, it addresses an outcome based on improving the livability and reflecting the needs, goals and character of the surrounding community and it provides great choice in mobility and land use decisions.
Complete Streets Policy adopted February 11, 2014

Includes checklists for development, preliminary engineering, repaving, and development review

References the Passaic County Complete Streets Guidelines (CSG) and corridor classification system

Being used for the sixth year of the resurfacing program

Tracks outcomes in regards to types of facilities and impacts

---

**WHAT’S A SHARROW?**

Sharrows are used to guide bicyclists on streets that don’t have bike lanes. They’re a simple reminder to car drivers and bicyclists to share the road!

**When you see sharrow on the road...**

1. Expect to see plenty of bikes – and be ready to slow down and share the road.
2. Bicyclists and two dining in the middle of the right hand lane to avoid the door zone.
3. Keep an eye out for kids on bikes – sharrow are often used around schools.
