City of Newark has seen an 86 percent drop in right angle crashes and a 42 percent dip in rear-end crashes since 2011

A photograph of the Newark skyline at sunset, with the city's reflection in the water. A semi-transparent blue box is overlaid in the center, containing the text 'PROJECT RED LIGHT' and 'AUTOMATED PHOTO ENFORCEMENT SYSTEM'. The background shows various buildings, including one with '550' on top, and a bridge on the left. The sky is a mix of orange and grey clouds.
