#### NJ COMPLETE STREETS SUMMIT 2019

## VISION ZERO

Presented by Greater Mercer TMA

## THIS PRESENTATION

What's the Problem

Vision Zero-What is it?

Vision Zero Strategies

Getting Started on Vision Zero

### What's the Problem

SETTING THE FRAMEWORK

#### New Jersey Population (US Census) 10,000,000 Sitcom Edge Streetcar 9,000,000 Cities Suburbs Suburbs 8,000,000 7,000,000 6,000,000 5,000,000 4,000,000 3,000,000 2,000,000 1,000,000 0 1900 1920 1940 1960 1980 2000 2020

### New Jersey

**Population & Economy** 

# 37,000+

ON AVERAGE, 100 PEOPLE EACH DAY ARE KILLED FROM MOTOR VEHICLE CRASHES IN THE U.S.

### NEW JERSEY NUMBERS

TOTAL FATALITIES

**2016** 602 FATALITIES

2017 624

2018 565

PEDESTRIAN & BICYCLE FATALITIES

2016 183

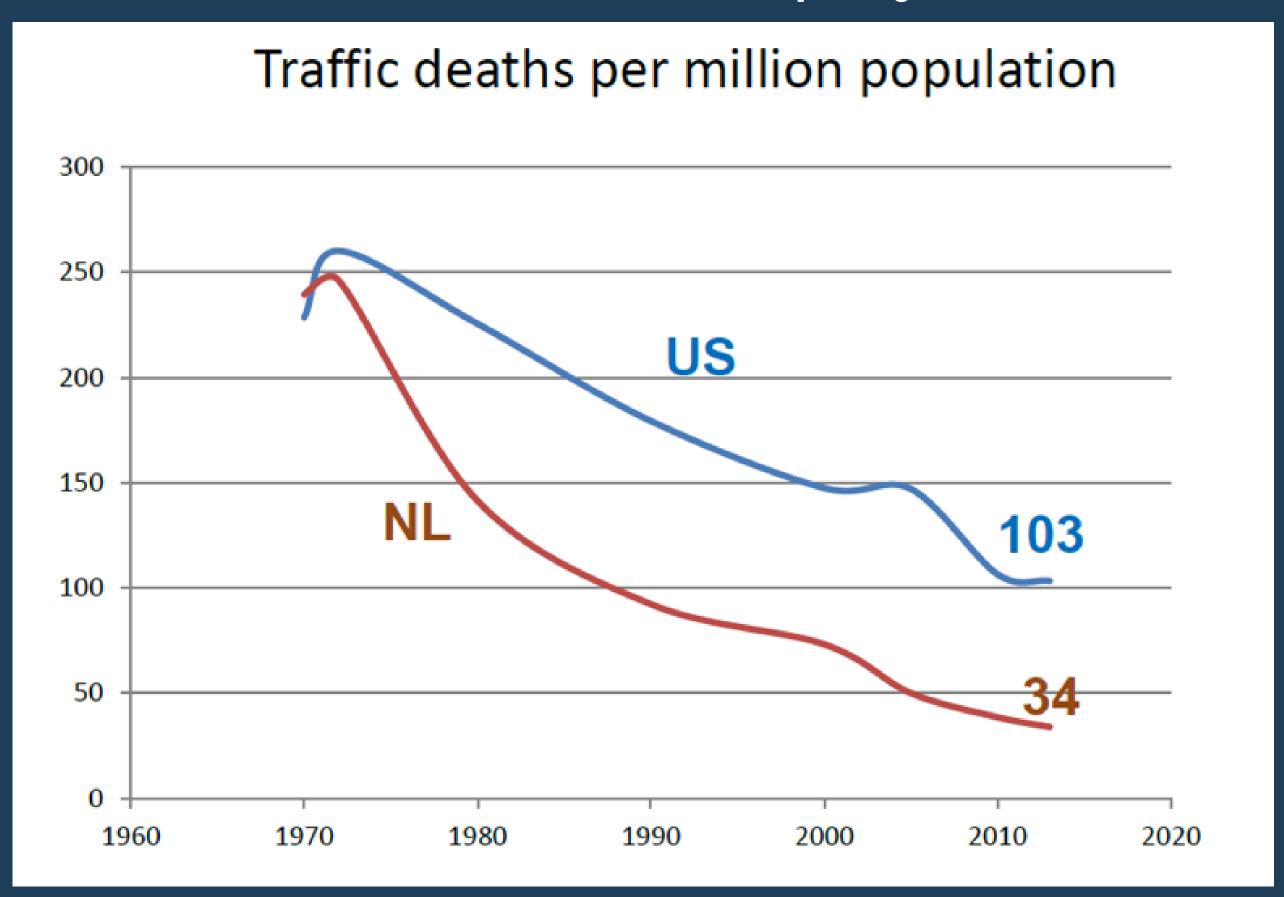

2017 200

2018 193

Pedestrian and bicycle fatalities are more than 30% of all fatalities

## DO YOU BELIEVE THEY ARE PREVENTABLE?

## If the U.S. had the same fatality rate as the Netherlands, we'd save 20,000 lives per year

## Vision Zero

WHAT IS IT?

## VISION ZERO

A STRATEGY TO ELIMINATE
TRAFFIC FATALITIES AND
SEVERE INJURIES, WHILE
INCREASING SAFETY, HEALTH
AND MOBILITY FOR ALL

### Vision Zero

**Core Principles** 

TRAFFIC FATALITIES ARE PREVENTABLE

PEOPLE MAKE MISTAKES

The transportation system should be forgiving

SAFE TRAVEL IS THE PRIORITY

Human life is prioritized over swift travel

SAFE SYSTEMS APPROACH

Requires more than individual behavior

Requires more than individual behavior change

SPEED MUST BE MANAGED

High speeds make crashes more likely and more likely to be deadly

## 1. THE DESIGNERS OF THE SYSTEM ARE RESPONSIBLE

for the design, operation and use of the transportation system.

## 2. ROAD USERS ARE RESPONSIBLE

for following the rules of the transportation system.

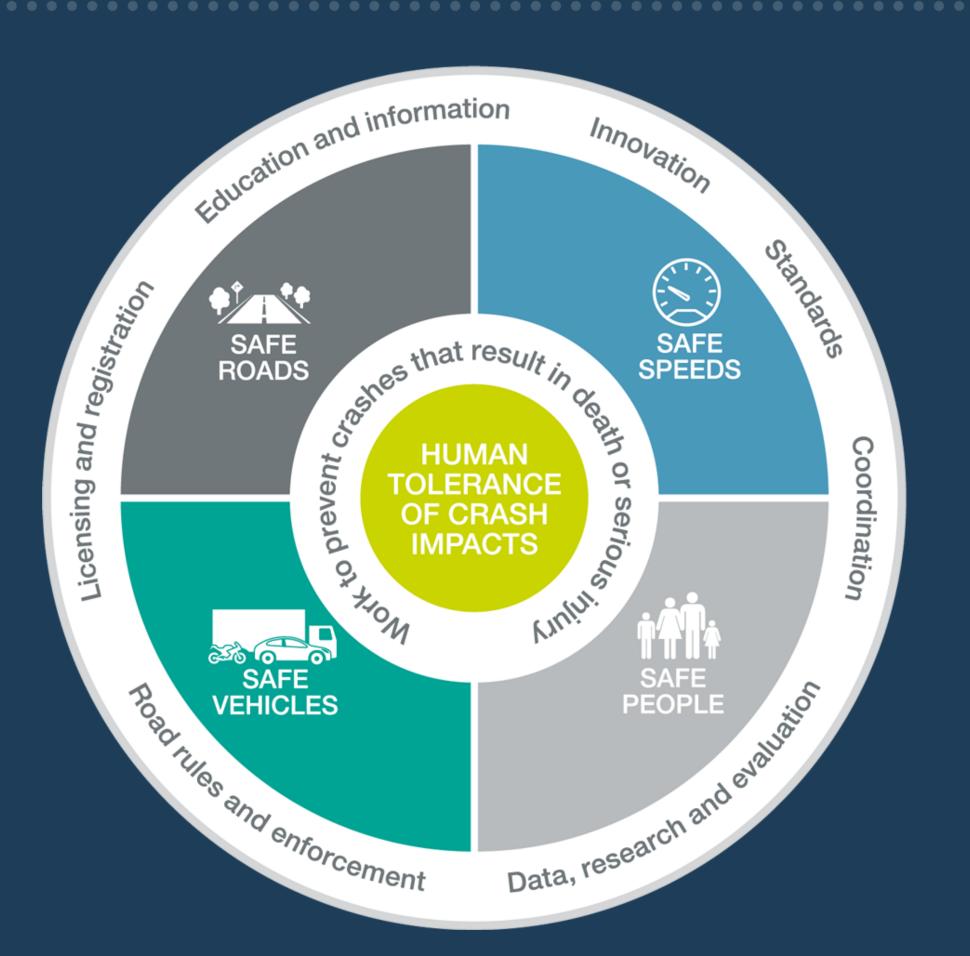

# TIERED LEVELS OF RESPONSIBILITY

## 3. HUMANS WILL INEVITABLY FAIL

to follow the rules due to lack of knowledge, discipline, or understanding of system.

# 4. DESIGNERS MUST TAKE THE NECESSARY STEPS

to ensure that the resulting crashes do not result in fatalities or serious injuries.

## Safe Systems

People will always make mistakes, but the system should be forgiving

We can't hope to perfect human behavior!

## Vision Zero

STRATEGIES

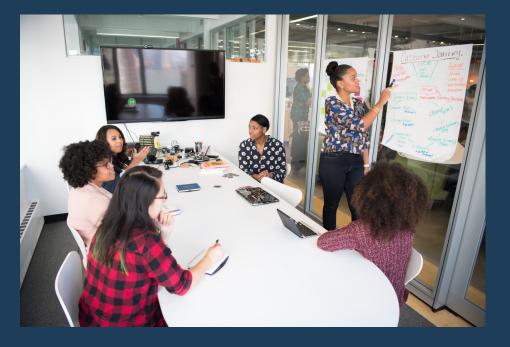

#### **MULTI-DISCIPLINARY APPROACH**

**ENGINEERING** 

**EDUCATION** 

**ENFORCEMENT** 

#### PROVEN SAFETY COUNTERMEASURES

#### Refuge Islands

Link: https://safety.fhwa.dot.gov/provencountermeasures/ped\_medians/

- Reduces pedestrian crossing distance
- Greater pedestrian visibility
- · Narrower lanes reduces driver speeding
- Flashing beacon alerts drivers
- Islands can be landscaped

Clarksville Rd, CR638, West Windsor NJ

#### Roundabouts

Link: https://safety.fhwa.dot.gov/provencountermeasures/roundabouts/

- Raised splitter island raised to form a pedestrian refuge
  - Reduction in severe crashes
  - Urban, rural, suburban options

George Dye Rd and Estates Blvd, Hamilton NJ

#### Hybrid Pedestrian Beacon (HAWK Signal)

Link:

https://safety.fhwa.dot.gov/provencountermeasures/ped hybrid beacon/

- Pedestrians can cross midblock or uncontrolled intersections
- Pedestrians activate the signal
- Motorists stop completely

State Road 35, Seaside Heights NJ

#### **Road Diet**

Link: https://safety.fhwa.dot.gov/provencountermeasures/road\_diets/

- Reconfigure four general travel lanes:
  - Two general travel
  - Center turn lane
  - Bike lanes

West Windsor, NJ

## MANAGE SPEED

DESIGN STREETS TO REDUCE SPEED

PRIORITIZE THE HIGH INJURY NETWORK

- LOWER SPEED LIMIT TO FIT CONTEXT
- CONSIDER AUTOMATED SPEED ENFORCEMENT PROGRAM

CREATE NEIGHBORHOOD
TRAFFIC CALMING
PROGRAMS

CREATE COMPLETE STREETS FOR ALL

HIT BY A VEHICLE TRAVELING AT:

20 MPH

10%
DEATH RISK

HIT BY A VEHICLE TRAVELING AT:

> 30 MPH

40% DEATH RISK

HIT BY A VEHICLE TRAVELING AT:

40 MPH

80%

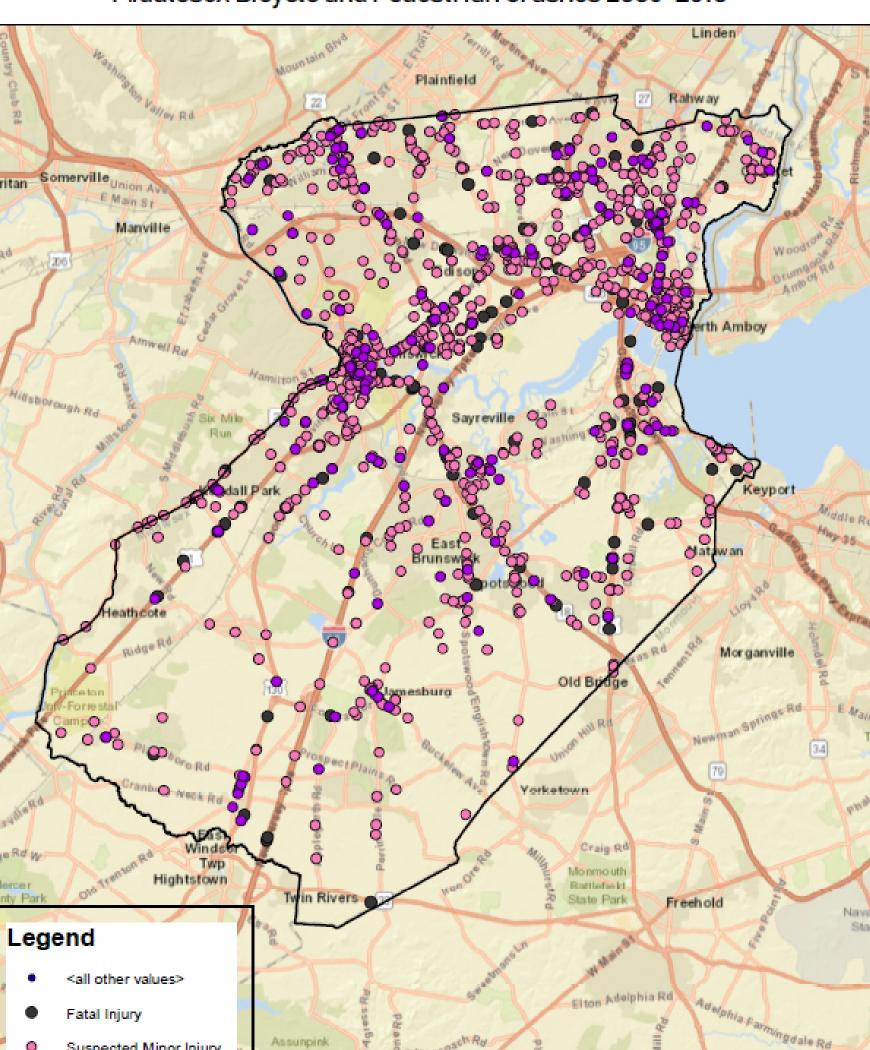

Speed is especially lethal for vulnerable users, like people walking and biking.

The risk of severe injury or death increases as a driver's field of vision narrows.

#### Middlesex Bicycle and Pedestrian Crashes 2006-2018

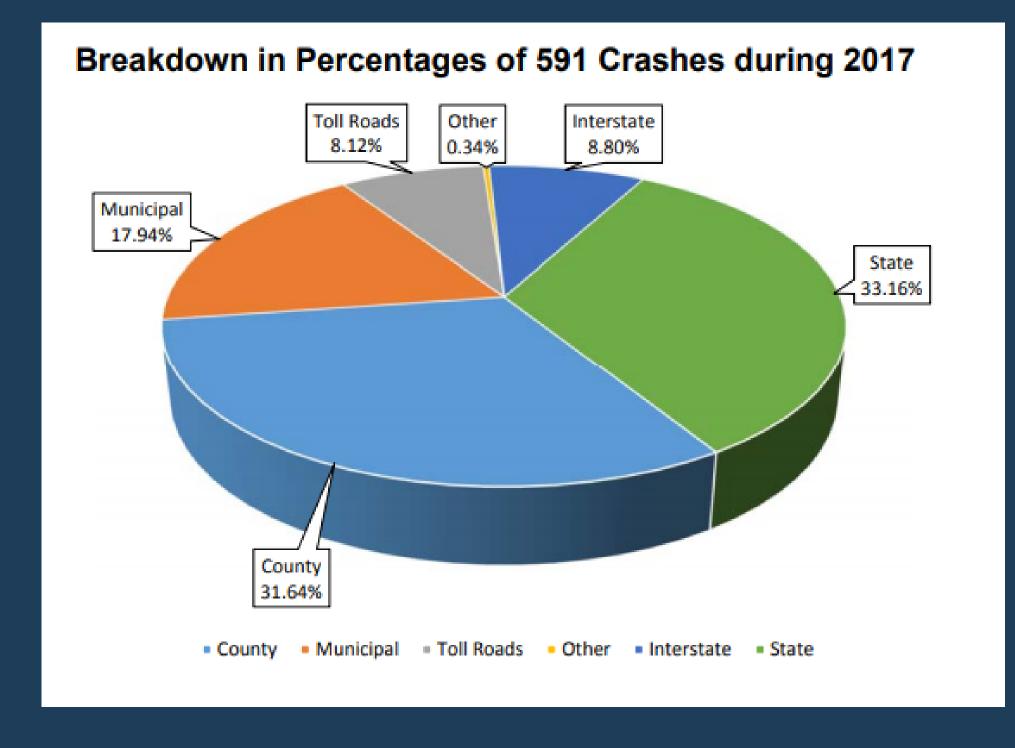

#### BE DATA DRIVEN

**RESPONSIVE HOT SPOT PLANNING** 

**EQUITY FOCUSED ANALYSIS** 

PROACTIVE, SYSTEMIC PLANNING

COMPREHENSIVE EVALUATION AND ADJUSTMENTS

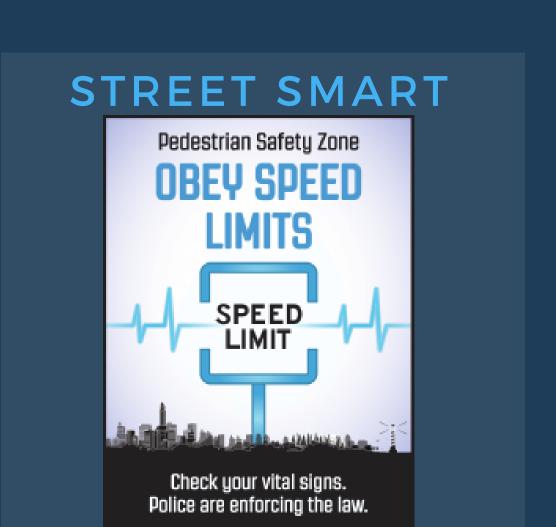

# NJ Crashes by Roadway

know where the crashes are occuring

#### **EDUCATION AND ENFORCEMENT**

Road Design and Speed Management are Key, but Education can Bolster the Success of Vision Zero

## Vision Zero

GETTING STARTED

## Vision Zero-first steps

#### POLITICAL COMMITMENT

This should include a resolution or policy that commits to goals and a timeline

#### FORM A VISION ZERO TASK FORCE

Multi-disciplinary team including Office of Mayor, public health, transportation, police and others.

#### CREATE AN ACTION PLAN

Clear strategies, "owners" of strategies, timeline, performance measures

## Thank you!

# OUR CITY AND OUR FAMILIES DESERVE SAFER STREETS.

Zero traffic deaths by 2030.

#### TRADITIONAL APPROACH

Traffic deaths are INEVITABLE

**PERFECT** human behavior

Prevent COLLISIONS

**INDIVIDUAL** responsibility

Saving lives is **EXPENSIVE** 

#### **VISION ZERO**

Traffic deaths are PREVENTABLE

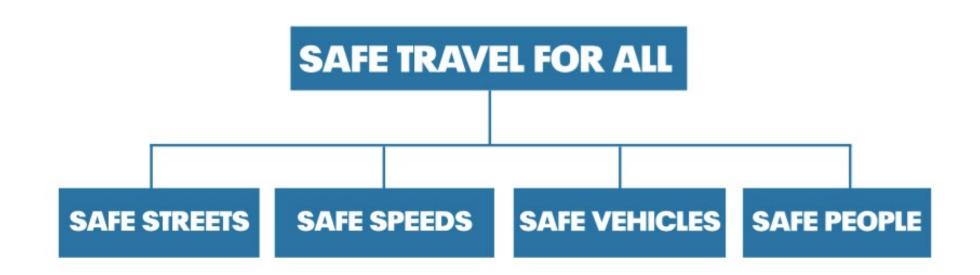

Integrate **HUMAN FAILING** in approach

Prevent FATAL AND SEVERE CRASHES

**SYSTEMS** approach

VS

Saving lives is **NOT EXPENSIVE** 

Hit by a vehicle traveling at

Hit by a vehicle traveling at

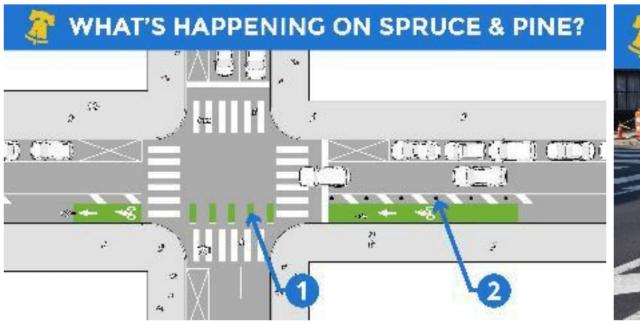

Hit by a vehicle traveling at

### Pine and Spruce

#### Paving and safety project in progress

- 1 Green markings through intersections. Drivers should yield to people biking & walking.
- 2 Flexible posts at most intersections to protect people biking from turning vehicles.

# Fleet management

Upgraded truck safety: Including 360-degree cameras, cross-view

mirrors, and sideguard panels.

#### What are sideguard panels?

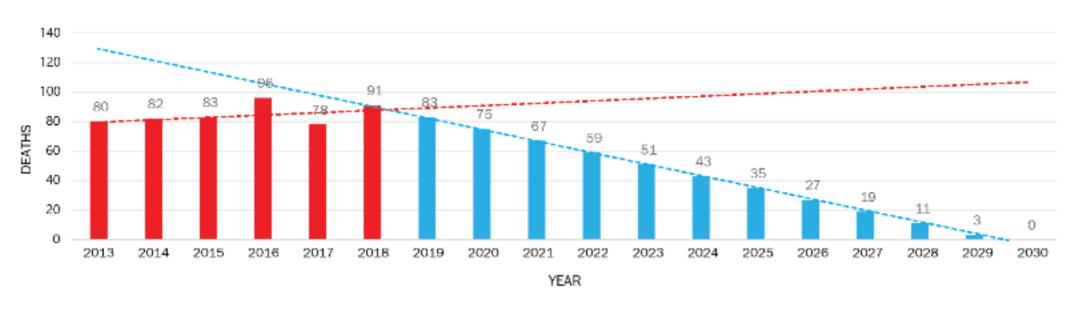

Side guard panels are installed between the wheels of large vehicles that prevent anyone walking or biking from being swept under the tires of a truck after a side impact. Side guard panels are proven, simple, and effective pedestrian and bicycle safety tool.

# Vision Zero trendline

#### Current & Desired Trendline for Vision Zero in Philadelphia

Current trajectory Desired trajectory

Source: PennDOT, 2013 - 2018

### What else is on deck?

> Zero traffic-related deaths in Philadelphia by 2030.

#### More in 2019:

- Automated Speed Enforcement on Roosevelt Boulevard
- Vision Zero Pedestrian Safety Study and Action Plan
- Accelerated designs for:
  - Parkside Avenue,
  - North Broad St medians,
  - Summer/Adams/Roosevelt Boulevard
- STAY TUNED: Vision Zero Year Two update released in October 1, 2019

The Emily Fredricks Foundation exists to remember and honor a wonderful young woman. The Foundation honors the person that Emily was and fosters the people, family values and things that she loved.

Thank you to Kelley Yemen, Director of Complete Streets of the Office of Transportation, Infrastructure and Sustainability in Philadelphia and Leah Shahum, Founder and Director of the Vision Zero Network for all their help with the factual information.

# Vision Zero in New York City

Joe Cutrufo
Communications Director, Transportation Alternatives

New Jersey Complete Streets Summit September 24, 2019

### Transportation Alternatives' mission is to reclaim New York City's streets from the automobile and advocate for better bicycling, walking, and public transit for all New Yorkers.

- Founded in 1973
- Staff of 30 full-time employees + seasonal street team
- 10,000 dues-paying members + 100,000 active supporters
- Volunteer committees working locally in all five boroughs
- Key achievements include
  - Pedestrian plazas
  - 1,300 miles of bike lanes
  - Kicking the cars out of Central Park
  - Winning the fight for congestion pricing
  - Making New York America's first Vision Zero city

### Why Vision Zero?

Traffic crashes are the leading cause of injury-related death for New Yorkers under 14, second-leading cause of injury-related death for seniors.

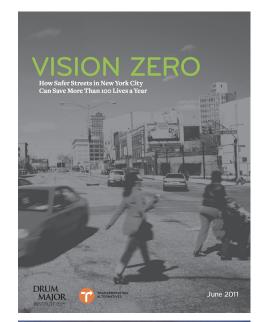

### How New York became America's first Vision Zero city

**2011:** Transportation Alternatives publishes *Vision Zero: How Safer Streets in New York City Can Save More Than 100 Lives a Year*, recommending the City of New York adopt a Vision Zero policy.

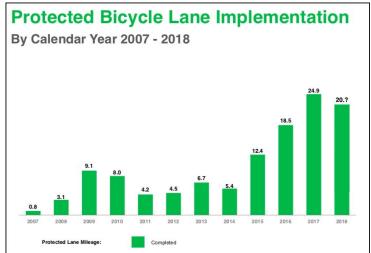

**2013:** Transportation Alternatives and Families for Safe Streets send more than 4,500 letters to then-mayoral candidate Bill de Blasio, who later announces that, if elected, his administration will launch a citywide Vision Zero initiative.

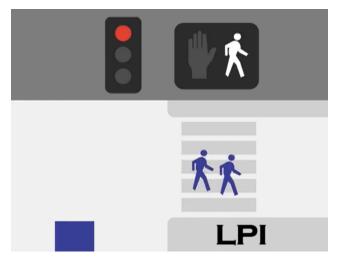

**2014:** de Blasio takes office and releases a 63-step Vision Zero Action Plan, with the majority of its recommendations pulled directly from Transportation Alternatives reports, studies and initiatives.

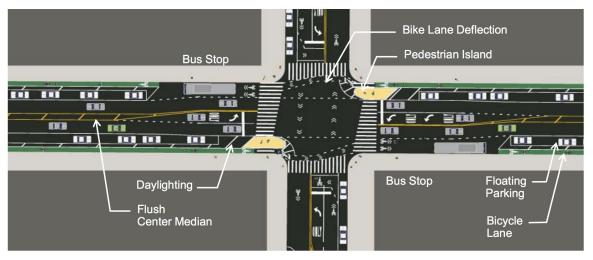

#### Speed Cameras Will Surround Every New York City Public School

ALBANY — The speed cameras that were installed around many New York City public schools several years ago seemed like an unqualified success: Traffic deaths near the cameras fell by more than half, and speeding was reduced by more than 60 percent.

And yet, last summer, the cameras went dark, a casualty of partisan politicking in Albany and a potent reminder of the capital's reputation for dysfunction.

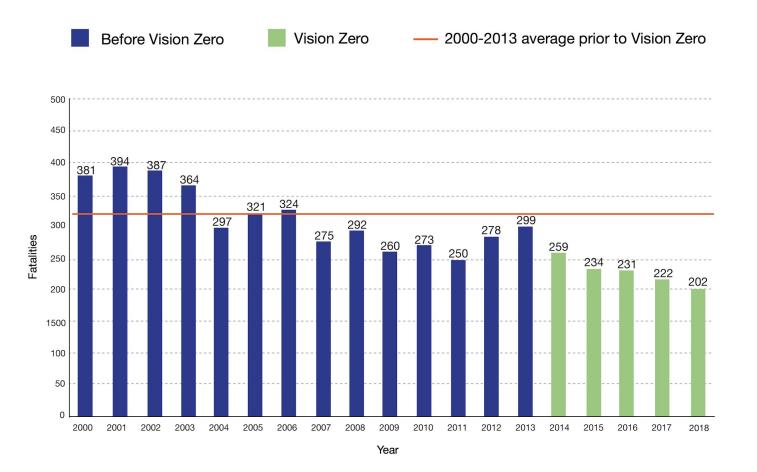

Now they are being revived, and then some: The newly Democratic-led State Legislature on Tuesday voted to renew and vastly expand the speed camera program, in a nearly fivefold increase that city officials say will cover every elementary, middle and high school in the city.

City officials said the authorization to place cameras in 750 school zones would make New York's school speed camera program the most robust in the nation.

#### **Automated enforcement**

Unbiased and unflinching, NYC's life-saving speed safety camera program is one of Vision Zero's biggest successes.

#### Traffic deaths have fallen during the first 5 years of Vision Zero.

We've cut traffic deaths by a third.

Here's what's standing in the way of saving even more lives:

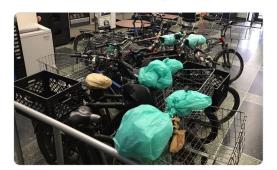

Had a successful Ebike operation today issuing multiple summonses & seizing the following bikes @NYPDTransport #VisionZero #NYPD

### Drivers Keep Killing Pedestrians, So The NYPD Will Crack Down On Jaywalkers

Cop Tackles Cyclist in Midtown — And It's All Caught on Camera!

# The Fuzzy Logic of a Jaywalking Crackdown in New York

NYPD Cracks Down On Cyclists, Not Drivers, Where Truck Driver Killed Bike Messenger Cyclist Assaulted In East Village Infuriated By NYPD Response: 'They Immediately Started Gaslighting Me'

# We can't address traffic deaths if we don't address traffic.

- New York City's streets are more congested than ever.
- The number of annual FHV trips in NYC has nearly doubled since 2013.
- Subway and bus ridership has fallen, even as population has grown.

In London, after congestion pricing was implemented, total traffic deaths fell by 40% and cyclist deaths fell by 80%.

# Vision Zero Street Design Standard & Transportation Master Plan

What we have today is a piecemeal approach to safe streets. Together, these two bills would make safe street design more systemic.

# Reckless Driver Accountability Act

Would boot or impound cars that accumulate five or more red-light and speed camera violations within one year, until their owners complete a Reckless Driver Accountability Program.

Sponsored by Council Member Brad Lander after a driver with a history of running red lights and speeding killed two children in his district.

Safe Streets Save Lives

October 10 - 11, 2019

**New York City** 

Transportation Alternatives will bring together leading industry and policy experts, advocates, and elected officials for the fifth annual Vision Zero Cities conference, taking place at Columbia University.

E.O. 2018- 001

February 9, 2018

#### AN EXECUTIVE ORDER OF THE MAYOR OF THE CITY OF JERSEY CITY ADOPTING A "VISION ZERO" INITIATIVE TAILORED FOR JERSEY CITY AND CREATING A VISION ZERO TASK FORCE TO DRAFT AN ACTION PLAN

Pursuant to the authority vested in the Mayor of the City of Jersey City by law, I hereby issue the following Executive Order:

WHEREAS, in the 1990s, officials in Sweden adopted a set of traffic management policies which fundamentally differed from traditional traffic safety policies and set the goal of eliminating traffic-related deaths and severe injuries; and

WHEREAS, this set of policies became known collectively as "Vision Zero" and its guiding principle is that deaths and injuries caused by traffic crashes should be treated as a public health problem which can be eliminated through better planning, not as an inevitable by-product of the vehicle-based transportation system; and

### **Our Vision Zero Goal**

Eliminate Traffic Fatalities and Severe Injuries on Jersey City Roadways by the Year 2026

#### **Developing the Action Plan**

The City established a Vision Zero Task Force to guide the development of the Action Plan through a 12-month process that included extensive public outreach. Three rounds of public meetings were supplemented by additional outreach activities at key stages of the process. Qualitative input from the community was combined with a detailed analysis of ten years of crash data to develop a detailed, data-driven Vision Zero Action Plan.

#### Vision Zero Task Force Members

- » Barkha R Patel (co-chair) Division of City Planning
- » Andrew Vischio (co-chair) Division of Traffic & Transportation
- » Paul Bellan-Boyer Department of Health and Human Services

IMPLEMENTATION

- » Patrick Conlon Bike JC
- » Jose Cunha Division of Engineering
- » Kara Hrabosky Safe Streets JC
- » Hon. Rolando Lavarro Municipal Council
- » Chief Steven McGill Fire Department
- » John McKinney Law Department
- » Mary Paretti Parking Enforcement
- » Brian Platt Department of Administration
- » Regina Robinson Board of Education
- » Lt. Scott Schnee Police Department
- » John Thieroff Mayor's designee
- » Martin Valenti Department of Public Works

US 1&9	County Rd.
I-78 / NJ Turnpike	

Engage the State and County as Vision Zero partners

#### **Actions to Design Safer Streets**

Action	Partners*	Timeframe	Performance Measures
1.1 Incorporate the current speed hump program into a broader traffic calming policy that encompasses a wider menu of traffic calming options including raised intersections, traffic circles, diverters, forced-turn channelization, and other treatments permissible on residential streets.	<i>T</i> , E, M, C	2 year	Update speed hump guidelines and application process
1.2 Develop a neighborhood slow zone program to allow neighborhoods to request treatments to slow motor vehicles to 15 to 20 mph using traffic calming features, signs, and markings. Explore feasibility of setting a 20 mph speed limit on residential streets.	T, P	2 year	Pilot one neighborhood slow zone near a school along the HIN
1.3 Prioritize major safety engineering projects at locations along the High Injury Network.	<i>E</i> , P, DPW, T	Annual	Conduct safety evaluations along 5 miles along the HIN per year
1.4 Advance high-priority projects established in Bike Master Plan.	<i>E</i> , P, T	Annual	Prepare concept development studies for 2 miles of protected bike lanes per year
1.5 Increase the visibility of crossing pedestrians at intersections and mid-block crosswalks through design strategies such as painted curbs, flex posts, and bike corrals.	<i>T</i> , E, P, DPW	2 year	Evaluate 30 of the most dangerous intersections along the HIN for potential improvements
1.6 Update Standard Engineering Details to strengthen requirements to maintain pedestrian and bicycle access near construction zones.	E, DPW, T	2 year	Update Traffic Barricade Manual and standard engineering details
1.7 Explore the desirability and feasibility of introducing additional pedestrian malls throughout the City.	<i>P</i> , BA, E, M, T	2 year	Evaluate one new pedestrian plaza location
1.8 Launch a citywide initiative to treat streets as places by incorporating placemaking efforts, with public art, green infrastructure and neighborhood amenities, into traffic safety initiatives prioritizing Communities of Concern.	<i>P</i> , BA, E, DPW, T	2 year	Pilot one placemaking initiative enhancing locations along the HIN
1.9 Work with JC Public Schools to establish dedicated school drop-off/pick-up zones.	T, E, C, PE, P	2 year	Pilot dedicated pick-up/drop-off zones at 6 schools along the HIN
1.10 Undertake a review of loading zones and vehicle-for-hire staging areas to determine if relocation or consolidation of sites is appropriate, especially along the HIN corridors.	T, C, E, P	2 year	Pilot new loading zone spacing and design on approximately 1/2 mile- long segment of one corridor
* ABC: Lead partner ABC: Supporting partner(s	)		

#### Actions to Design Safer Streets (continued)

Action	Partners*	Timeframe	Performance Measures
1.11 Update traffic signal timing policy to default to pedestrian recall, expand use of LPI and exclusive pedestrian phases, and target shorter cycle lengths.	<i>T</i> , E, P	2 year	Place 75% of traffic signals on pedestrian recall and expand LPI to 30 intersections
1.12 Identify bus stop locations near high crash clusters to determine potential improvements/relocation possibilities.	T, E, NJT	2 year	Evaluate 10 bus stop locations
1.13 Inventory regulatory signage along HIN to determine areas for improvement.	T, DPW	2 year	Inventory 25% of the HIN
1.14 Enhance street lighting to improve safety at key intersections on the HIN.	E, DPW	5 year	Review intersection lighting levels at 20% of intersections within the HIN per year
1.15 Review pavement marking condition along HIN.	<i>E</i> , T	Annual	Evaluate HIN annually
1.16 Conduct review of the sidewalk network to identify gaps and prioritize improvements.	E, DPW	5 year	Identify all gaps in sidewalk network along the HIN
1.17 Improve the sidewalk and signage maintenance program to ensure sidewalks are clear of obstructions.	E, DPW	5 year	Conduct sidewalk condition audit for half of the HIN and recommend improvements
* ABC: Lead partner ABC: Supporting partner(s)			

# Theme (1 of 5): Design Safer Streets

### **Highlights**

- Implement a broad traffic calming program
- Prioritize major safety engineering projects on the High Injury Network
- Increase the visibility of pedestrian crossings

## Theme: Promote a Culture of Safety

### **Highlights**

- Establish Jersey City chapter of Families for Safe Streets
- Conduct a public education campaign to change norms around traffic safety
- Reduce motor-vehicle miles traveled and promote alternatives, especially for short trips

# Theme: Embed Vision Zero in City Practices

### **Highlights**

- Establish a multidisciplinary Rapid Response Team to review every fatal crash
- Develop a training program on Vision Zero for City staff and vehicle operators
- Ensure all City fleet vehicles have the latest crash reduction equipment

Source: NYC DCAS

# Theme: Enforcement, Law, and Policy

### **Highlights**

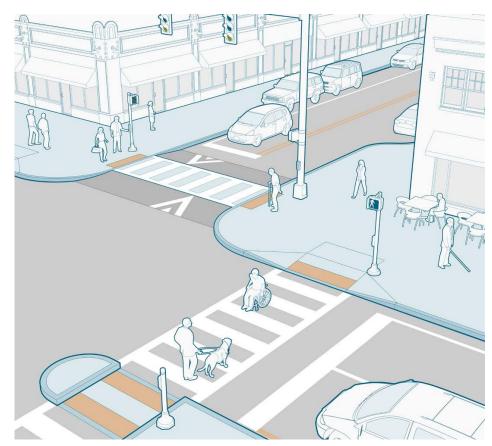

- Evaluate City laws and ordinances for changes necessary to improve traffic safety
- Develop a state legislative agenda to enable the City to promote roadway safety
- Develop a strategy for enforcement programs that is equitable and transparent

# Theme: Planning and Leveraging Data

### **Highlights**

- Develop a street design guide reflecting international best practices
- Update development regulations and design standards to reflect Vision Zero principles
- Improve data collection and analysis

Source: FHWA

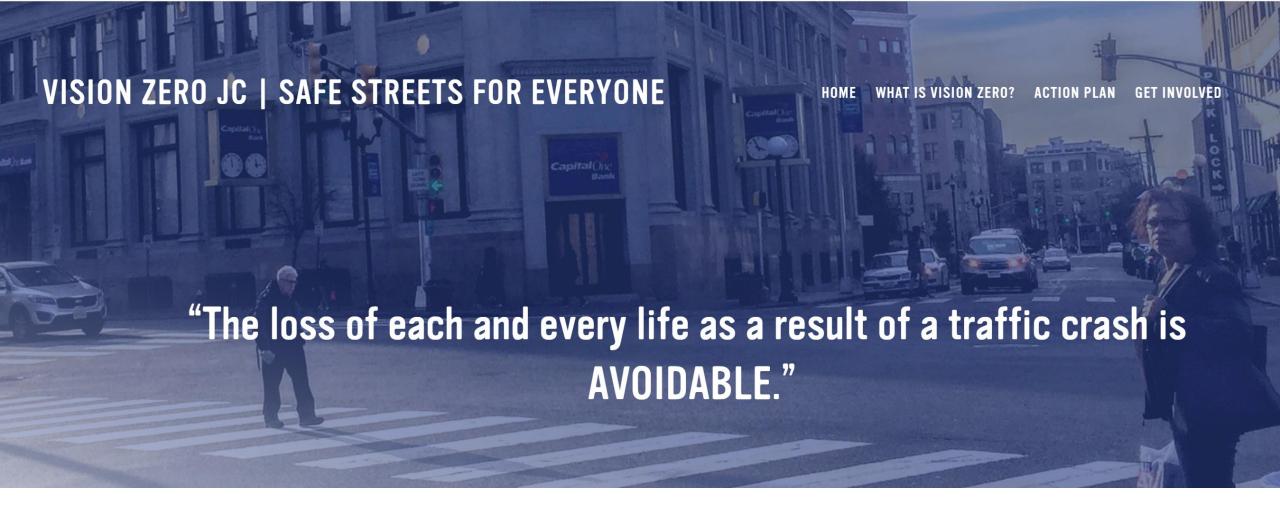

### Vision Zero JC: 2019

- Adopted Vision Zero JC Action Plan
- Renewed Task Force with new members
- Traffic Calming continues: speed humps, curb extensions, LPI, etc.
- Corridor safety studies along HIN continue
- First Bicycle Master Plan developed
- First protected bike lane installed (4.2 miles constructed)
- First Vision Zero Annual Report in progress

Jersey City Fatalities from Traffic Crashes				
Years	City Roads	All Roads		
2008 – 2017 (on average)	3	9		
2018	5 (HIN – 3)	10 (HIN – 5)		
2019 (to date)	2 (HIN – 1)	4 (HIN – 3)
